Following the success of the first seven editions of the IEEE workshop on Computational Advances in Multi-Sensor Adaptive Processing, we are pleased to announce the eighth workshop in this series. IEEE CAMSAP 2019 will be held at Le Gosier, Guadeloupe, French Antilles, and will feature a number of plenary talks from the world's leading researchers in the area, special focus sessions, and contributed papers. All papers will undergo peer review in order to provide feedback to the authors and ensure a high-quality program.
